

DISCIPLINE SHEET

1. Program data

1.1 Educational institution	Babeş-Bolyai University, Cluj-Napoca
superior	Psychology and Education Sciences
1.2 Faculty	Department of Applied Psychology
1.3 Department	Psychology
1.4 Field of study	Master
1.5 Cycle of studies	Master in Clinical Psychology

2.1 Name of discipline	Clinical psychology and individual and group psychotherapies						
2.2 Holder of course activities	Assoc. Prof. Bernath Anna Emese						
2.3 Holder of seminar activities	Assoc. Prof. Bernath Anna Emese						
2.4 Year of study	1	2.5 Semester	1	2.6 Type of assessment	E	2.7 Discipline regime	DA

1. Estimated total time (hours per semester of teaching activities)

3.1 Number of hours per week	4	Of which: 3.2 Course	2	3.3 Seminar/laboratory	2
3.4 Total hours from curriculum	56	Of which: 3.5 Course	28	3.6 Seminar/laboratory	28
Time Fund Distribution:					hours
Textbook study, course support, bibliography and notes					70
Additional documentation in the library, on specialized electronic platforms and field study					30
Preparation of seminars/laboratories, themes, papers, portfolios and essays					35
Tutoring					3
Examination					2
Other activities: e.g. participation in studies					-
3.7 Total self-study hours	140				
3.8 Total hours per semester	196				
3.9 Number of credits	8				

1. Preconditions (where applicable)

4.1. Curriculum	<input type="checkbox"/>
4.2. Competencies	<input type="checkbox"/>

1. Conditions (where applicable)

5.1 Course	• Multimedia systems (PC/laptop, video projector)
5.2 Seminar/laboratory	• Multimedia systems (PC/laptop, video projector), Microsoft Teams platform

1. Specific skills acquired

Professional skills	<ul style="list-style-type: none"> • Understanding and applying the principles of scientifically validated interventions in the field of clinical psychology / psychotherapy • Advanced diagnostic and clinical evaluation skills • Efficient implementation of the stages of the clinical / psychotherapeutic approach • Understanding the etiopathogenetic mechanisms of mental disorders • Knowledge of training standards in the clinical field • Advanced skills in establishing and maintaining therapeutic relationships and managing difficult cases • Ability to customize clinical/psychotherapeutic intervention to patient characteristics • Skills in carrying out case conceptualization • Self emotional regulation skills
Transversal skills	<ul style="list-style-type: none"> • Critical analysis of literature • Ability to make analogies and transfer knowledge • Development and implementation of research approaches • Cultivating interest in continuous personal and professional development

2. The objectives of the discipline (based on the grid of accumulated competences)

7.1 General objective of the discipline	Transmission of knowledge and formation of skills for implementing scientifically validated clinical psychology and psychotherapy approaches.
7.2 Specific objectives	<ul style="list-style-type: none"> • Presentation of the principles of scientifically validated intervention in the field of psychotherapy • Presentation of the main theoretical approaches in psychotherapy • Training of advanced diagnostic and clinical evaluation skills Formation of capacity for efficient implementation of the stages of clinical / psychotherapeutic approach • Developing self-knowledge by understanding mindfulness skills • Development of emotional regulation capacities

2. Content

8.1 Course	Teaching Methods	Comments
CBT as the Integrative Psychotherapy. Multiple cognitive-behavioral approaches in psychotherapy – multimodal therapy.	Presentation, discussions, video session reviews, case analyses	
Multiple approaches in psychotherapy – reality and choice therapy and new evidence based trends.	Presentation, discussions, video therapy reviews, case analyses	
Multiple cognitive-behavioral approaches in psychotherapy – cognitive therapy	Presentation, discussions, videos, case analyses	
ACT. Acceptance and commitment therapy – principles. Cognitive diffusion and mindfulness.	Presentation, discussions, videos, case analyses	
Self-help Cognitive therapies.	Presentation, discussions	
Implementing hypnotherapy techniques. Principles, basic techniques, evidence base approach.	Presentation, discussions, videos, case analyses	

Humanistic approach therapies. Building client therapist relation.	Presentation, discussions, video therapy sessions, case analyses

3. Corroborating the contents of the discipline with the expectations of representatives of the epistemic community, professional associations and representative employers in the field related to the program

The contents taught and the competences targeted are in accordance with the standards of good practice at national and international level in the field of scientifically validated psychological interventions and correspond to the training norms in the field of clinical psychology, counseling and psychotherapy requested by the College Romanian Psychologist.

3. Assessment

3. Type of activity	10.1 Assessment criteria	10.2 Assessment methods	10.3 Share of Endnote
10.4 Course	10.1 Assessment criteria	Examination	50%
	Knowledge of the course content		
10.5 Seminar/laboratory	Browsing the mandatory bibliography	Portfolio (case studies)	50%
	Knowledge of the seminar content		
	Browsing the mandatory bibliography		

10.6 Minimum Performance Standard

If in point 10.4 the student does not obtain a passing grade (5.00), then the exam is considered as not passed, even if the student fulfilled the tasks stipulated in the activities listed in point 10.5. Attendance at classes is 85% mandatory, otherwise the full-time student cannot attend the exam. Excused and unexcused absences from seminar activities and/or practical work may not exceed 15% of the total provided (3 out of 14). The delivery and presentation of the paper(s) are mandatory as a precondition for presentation at the exam. Any plagiarized, copied, identical work, as well as any inspiration, collaboration, copying is considered fraud, in which case the person(s) in question will be sanctioned with a grade of 1.00 (one). Exam fraud is sanctioned with expulsion from studies. Students who enroll in sessions subsequent to the normal session (in open session, arrears, liquidation) must go through and satisfy all the requirements stipulated in the respective semester (attendance at the various activities, partial exams, homework, projects, etc.)

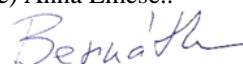

Date of completion
